

On Thursday, Aug. 28, Idaho Gov. Dirk Kempthorne presented employees at the INEEL's Big Shop with the Idaho GEMStars award for their efforts in pollution prevention, waste minimization and water and energy conservation. To honor the employees, a public event was held that afternoon at 3 p.m. on the north side of the Engineering Research Office Building. Employees were also honored in a special event at the Big Shop itself, lower right photo. The bottom photo, next page, says it all.

Here are some photos of the day's events.
